PRESENTATION
LAND USE BYLAW

CHICKENS
QUAILS
TURKEYS

EDMONTON

LACOMBE

WHITEHORSE

VANCOUVER

GUELPH

VICTORIA

WE SUGGEST

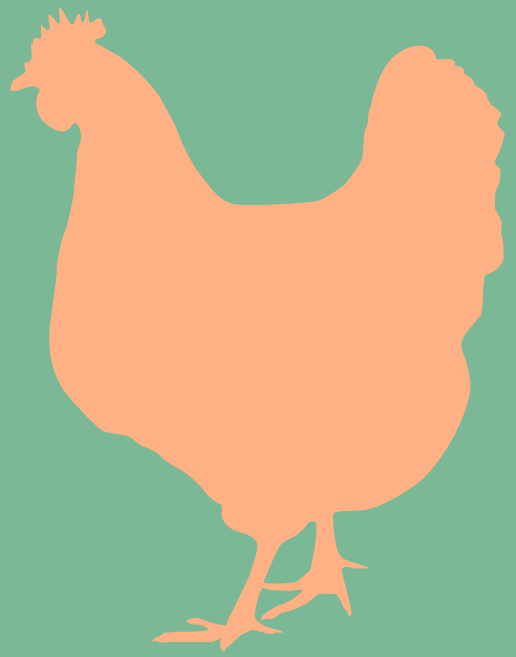

- PERMIT CHICKENS AND QUAIL TO BE OWNED AND KEPT IN DRUMHELLER, THEY SHALL ABIDE BY BYLAWS DRAFTED IN REFERENCE TO OTHER CITIES WHO HAVE ALREADY DEVELOPED SUCH BYLAWS BUT ALTERED TO SUIT OUR COMMUNITY.
- WE WOULD SUGGEST A MAXIMUM OF 6 (SIX) CHICKENS OR 12 (TWELVE) QUAIL, OR A COMBINATION NOT EXCEEDING A MAXIMUM EQUIVALENT OF 6 CHICKENS IF 2 QUAIL ARE EQUAL TO 1 CHICKEN.
- PROHIBITED SALE OF THE EGGS OR MEAT OF THE BIRD (PERSONAL USE ONLY)
(SLAUGHTERS MUST BE DONE BY A PROPERLY LICENCED FACILITY)

URBAN HENS

WE SUGGEST

- PROHIBIT ROOSTERS TO REDUCE THE RISK OF A POULTRY POPULATION BOOM AS WELL AS NOISE CONTROL
- WE WOULD SUGGEST AN EXCEPTION TO THE ALLOWED QUANTITY TO BE CONSIDERED FOR SOMEONE IN A MORE RURAL AREA (LIKE ROSEDALE OR EAST COULEE) WITH A LARGER PROPERTY SO THEY MAY HAVE THE OPTION OF A HATCHERY TO PROVIDE LOCALS WITH A SOURCE OF NEW CHICKEN AND QUAIL IF SOMEONE APPROACHES THE TOWN WITH THE INTEREST OF DOING SO.
- WE SUGGEST BYLAWS AND LICENCES BE STRUCTURED SIMILARLY TO EDMONTON OR LACOMBE WHICH ALL ENCOMPASSES THE POSSESSION, USE, HABITATION, AND DISPOSAL OF THE BIRDS AND THEIR WASTE)

URBAN HENS

CONSIDER THE FOLLOWING

- Chickens and Quails lay eggs; a source of food for families
- Chicken manure is an excellent fertilizer
- Urban hen programming supports family activity, responsibility and learning; chickens and quails make great pets
- Great compost system - Chickens eat many food scraps that would otherwise end up in the landfill
- This program will also appeal to retirees who would wish to participate in this program
- Bug control
- Because this program would not allow roosters or male quails, **noise would be limited to cute cooing and clucking**
- Local financial stimulation; collaborate with local hardware shops for Coop Kits, lumber fixtures and feed
- Enthusiast groups
- Surplus eggs could be donated locally to food banks or pancake breakfasts

thanks
